

Make-up pin - up girl

Make-pin - up girl is definitely timeless. Today worn in the classic version of the eye underlined in black eye-liner and red lips, but also the color of lips .Regardless of whether a more classical or modern, it looks very sexy. There are several elements that characterize this type of make-up. Strongly marked red lips and pointed out a black eye-liner still the eyes of the men return. Stimulate their imagination in the same way as if the image was created the first pin-up girl.

The background and additional to those characteristic features are clearly marked eyebrows and smooth, uniform skin.

The most recognizable representative of this style was Marilyn Monroe. Her image - make-up and other elements of style - is the model of feminine beauty, not just the fifties. Is well known that its beauty hearts of men as any other beauty. Vivid red lips and the eyes are highlighted by its flagship .Today styled pin-up girl often returns in the trends for the next seasons. Sometimes, in its pure form, and sometimes in the new scenes. This style is set primarily on women and stress the sexy. Without a doubt, seductive make-up, which is the essence of femininity.
